

Papers

Paper number	Author	Title	Published Volume
1583	Professor Eddie Friel	Cities in the 21st Century: Glasgow Competing in the Global Economy	2001
1584	Aleazar Molisac	Machine Tool Development Over the Years	2001
1585	Dr ODD Watson	Practical Ship Design and Writing about it	2001
1586	A MacDonnell, G A McInally, Y Kaya	The Role of Reservoir in Flood Prevention in Scotland	2001
1587	Dr Ing Thomas A Peters	Production of Potable Water From Sea Water with Reverse Osmosis	2001
1588	John C Hutchison	The Engineer in the Community	2001
1589	Colin Brown, Gary Wylie	Railway Signalling: Theory, Application and Topics of Interest	2001
1590	Prof Ian MacLeod	Some Consequences of Metallic Corrosion	2002
1591	Hugh A Norwood	The Falkland Islands: Opportunities and Threats	2002
1592	L Blanton	Ships and Efficiency: One Hundred and Fifty Years of Economic and Technical Development	2002
1593	Paul A Reilly	The Ongoing Refurbishments With Hydrogen: Stations Within the Scottish and Southern Energy Plc	2002
1594	Tom McNeill	Strengthening the Links: Caledonian MacBrayne Enter the 21st Century	2002
1595	Dr Julia King	Current Developments in Marine Propulsion: Would Parsons be Proud?	2002
1596	Prof Jim McDonald	Electric Propulsion in Marine Applications: An Electrical Engineer's Viewpoint	2002
1597	A Macdonald	Cyclists Revisited: Signposting in Netherland	2003
1598	Prof John G Paul	Engineering Aspects of Joint Replacements: Implants and Artificial Limits	2003
1599	Jim Reid, Alan Goodhue	Type 45 Destroyer Project	2003
1600	David Lewis, Alan E Tweedie	The Scottish Parliament Building Structural Design	2003
1601		Maritime and Coastguard Agency surveys - no paper submitted	2003
1602	Daniel McAner	Integrated Business Strategy	2003
1603	Dr Peter Hughes	Scottish Engineering - A Proud Past, An Exciting Future	2003
1604	Sheffei J Ivime Smith	The Master Lecture: The Trial of Captain Green 1705	2004
1605		Power from waves - no paper submitted	2004
1606	Dr Jamie Taylor	Independent Safety Assessment	2004
1607	Gavin Ruggley, Steve Marshall	Work on the marine accident investigation branch	2004
1608	Stuart Warrington	Marine Corrosion and its Effect on the Shipping Industry	2004
1609	Stephen Payne	Genesis of a Queen	2004
1610	Prof Rodrick Galbraith	Two Hatched Years of Aviation	2004
1611	Crawford F Gozie	Made in Scotland: by good fortune or good fortune? The Weir Group Plc	2005
1612	Colin Bayliss	Nuclear Decommissioning in UK&EA	2005
1613	Julie Carlton, Jim Wilson	EC and National Standards for Inland Waterway Vessels	2005
1614	Dennis Welch	The development of sandbank plate and its uses	2005
1615	Peter L Frazer	Marine Current Turbines: Progress With Tidal Turbine Development	2005
1616	Dr William Flood	Why did the Vikings call it Greenland? - Greenhouse gases, Global Warming and Climate Change	2005
1617	Paul Dalton, Des Mooney	Undersea River Pipeline Outfall Design	2005
1618	Dr Barry Cleary	UK Science and Engineering Skills shortage within the profession	2007
1619	Prof Muffy Calder	Feature Interaction Detection by Pairwise Analysis of LTL Properties - A Case Study	2007
1620	Prof Donald Vassallo	Designing for Energy Stability and Sustainability - Recent Developments and Implications	2007
1621	Tom Henson, Marcus Cave	UK Customer Rescue Services: Assets in Retiree	2007
1622	Nick Cooper	The Falks Wheel	2007
1623	Mark Allen, Gus Watts	Kilnave Water Project: Victorian Legacy Enhanced by 21st Century Engineering	2007
1624	Ernest G W Chambers	150 years of engineering excellence and achievement in Scotland	2008
1625	Prof Richard Harris	The role and importance of manufacturing to the Scottish economy	2008
1626		SS Tararova - no paper submitted	2008
1627	Simon Knight	The UK CV adaptable aircraft carrier	2008
1628	David Arie	History of the Liberty Ship	2008
1629	Macdonald Reed	Transport in Scotland: past, present and future	2008
1630	Lord Weir	Contribution of manufacture to the Scottish Economy	2010
1631		Public Health - no paper submitted	2010
1632	Sir Ken Collins	150th Anniversary Lecture: Engineers contribution to protect and enhance the state of Scotland's environment	2010
1633	Coastway Vassallo	150th Anniversary Lecture: Aviation in Scotland	2010
1634	Vic Emery	150th Anniversary Lecture: Shipbuilding over the past 100 years	2010
1635	Philip G Preston	150th Anniversary Lecture: Ferries in the West of Scotland	2010
1636		150th Anniversary Lecture - "Railways" - no paper submitted	2010
1637		150th Anniversary Lecture - "The Heart of Engineers on Scotland 1858-2008" - no paper submitted	2010
1638	Prof Ian A MacLeod	150 Years of Engineering Education in Scotland - a critique	2010
1639	Prof David A Harrison	Advances in engineering computing	2012
1640	Prof Clive Neal-Surgeus	Current problems in vehicle safety - no paper submitted	2012
1641	Stephen Payne	QE2 - a complete history - no paper submitted	2012
1642	Crawford MacCallum	The Nello Project	2012
1643	Prof A Unsworth	Challenges of Engineering in Space	2012
1644	Prof Tanya Andriyeva	The Glasgow Project - no paper submitted	2012
1645	Nail Sandilands, Richard Appleby	Joint Meeting with RNSK, Hybrid Ferries - An opportunity for Scotland - no paper submitted	2012
1646		Building the Nation's Flagship - no paper submitted	2012
1647		Ship Stabilities and other FFE activities - no paper submitted	2012
1648		Low Carbon Economy - Can engineers start to define questions rather than answer them? - no paper submitted	2013
1649		Building QE2 - and other tales of the overbank	2013
1650	Dr Brodsky	New York's outer harbor gateway A concept for flood surge defence	2013
1651	Colin Forsyth	The practical challenges of delivering a product-service system	2013
1652	Dr T S Baines	Design of Longspan Bridges - no paper submitted	2013
1653		Scotts engineers who made the modern world	2013
1654		Transparency and Ethics in Engineering Project Management no paper submitted	2013
1655	Dr Gordon Masterton	Autonomous Robots - no paper submitted	2013
1656		On voice synthesis	2013
1657	Dr David M Howard	High Speed 2 Unholying the UK and developing the economy - no paper submitted	2013
1658		Hybrid Ferries - An opportunity for Scotland - no paper submitted	2013
1659		Reconstruction in the front line - military engineering in Afghanistan no paper submitted	2013
1660	Dr A Pearson	The role of refrigeration in the future of food and farming	2013
1661		Barrie Rowlands - no paper submitted	2013
1662	Dr A Pearson	Bringing the infrastructure gap	2013
1663		The ethics of professional engineering	2014
1664	Gus Macdonald	Engineering Alchemy	2014
1665	Iain MacLeod	God Particle or God Damn Particle? Working on the Large Hadron Collider	2014
1666	Ed McCann	Engineering the GB Electricity system	2014
1667	Nelson Martin	Lloyds Register: 250 years of history, including Scotland's story	2014
1668	Colin Gibson, Iain MacLeod	AMC Floating Dock - Western Australia	2014
1669	Iain White	Why did the scottish enlightenment happen and could it happen again?	2014
1670	David Westmore	Engineering and Transport in Scotland	2015
1671	Tom Devine	The Alexander project	2015
1672	Phil Preston	Traditional ship launching	2015
1673	David Stewart	A future for maritime professionals	2015
1674	Fred M Walker	A celebration of James Watt's legacy	2015
1675	Patricia Currie	Engineers and Government: The case for improving strategic risk management	2015
1676	Andy Pearson	Nuclear power in the UK	2016
1677	Gordon Masterton	Disruptive manufacturing in the 4th industrial era	2016
1678	Kath Burns	The Optim story	2016
1679	Nick Shields, Gordon Vinters	Charmion Dynamics 1994 - Manufacturing is still possible in Scotland	2016
1680	Douglas Anderson	Scotland's industrial development in economic perspective	2016
1681	Dick Pirbuck	Why are three heads better than one? Dr How to prepare a new Enlightenment	2016
1682	Paul Sweeney, Ian Johnston	Planning and procurement of the Queensferry Crossing in Scotland	2016
1683	Peter Jones	Wall failures in Edinburgh Schools, Drivers behind structural failure	2016
1684	Lawrence Blackman, David Cline	The legacy of the Tay Rail Bridge Collapse	2016
1685	William M Crowe	Best practice for engineering contract documents	2016
1686	Iain MacLeod, Tom Martin	Scotland's risks in the development of head pumps: 1850-2050	2016
1687	James Smeddon Dow	The role of professional engineers at sports events	2016
1688	Dr A Pearson	Mohel salt reactions - a new era for nuclear power?	2016
1689	William Durrar	Engineering for net zero emissions	2016
1690	Kath Burns	Experiences of a critical thinking approach in engineering practice	2016
1691	W3 Energy Strategy Group	The success of the Royal National Lifeboat Institution (RNLI)	2016
1692	M J Fair	The Institution's First President	2016
1693	Prof Ian MacLeod	Floating Drydocks: Past, Present, Future	2019
1694	James Smed	Human Factors in Risk Management: Hard Truths and Challenges	2019
1695	David Westmore	Ahead of the Wave The reality for shipping	2019
1696	Ronald W MacLeod	Carbon Fibre The evolution of a new material	2019
1697	Douglas W Lang	James Clerk Maxwell and intellectual democracy	2019
1698	John Davidson	Leadership and ethics in complex problem solving	2019
1699	Prof Ian A MacLeod	Designer's liability - ethics and the law	2019
1700	Prof Ian A MacLeod	A light headed look at road pump design	2021
1701	Dr A Pearson	Harvesting a TS W grinder	2021
1702	Dick Pirbuck, Chris McCrory	The concept design of the Wily ferry	2021
1703	Lewis Harnell	Designing a new 'Red and Be' Thirlfold road	2021
1704	James Smeddon Dow, Prof Ian MacLeod	Dealing with plastic waste sustainably	2021
1705	Prof Ian Arden	Presidential Address: Manufacturing matters	2022
1706	Dick Pirbuck	Great ships, solitary waves and solitons	2022
1707	John Mulla	Why society needs engineers, especially Naval Architects, Marine and Ocean Engineers	2022
1708	Frederic G Noble	System planning in government and education	2022
1709	Iain A MacLeod	Science of Cracks: Fracture mechanics	2022
1710	Edwin Cheekie	Energy Benchmarking	2022
1711	Andy Pearson	Injecting New Life into our existing buildings	2022
1712	Steve Fernandez	Plasmaspace Schools	2023
1713	Jonathan Hines	Early Developments in Computing	2023
1714	David Murray-Smith	Quantum Computing	2023
1715	Viv Kardon	Electricity Supply in Great Britain 1919 to 2023	2023
1716	Charles Stoot	Helping to turn the tide on climate change	2023
1717	Andrew Scott	Green Armies as a global reserve fuel	2023
1718	Mike Mason		2023
